Sugar produces a revenue of about \$50,000,000 year and a considerable revenue is dewhite antis no doubt felt absolved from 100 per cent, is divided equally between is all the more important in view of the rived from a tariff tax on cotton and woolen goods. The processes of extracting sugar from roots have been so much improved that it is believed that at preseni prices domestic sugar will soon sup-ply the market. The industry is capable of indefinite expansion. If one best sugar manufactory can be made profita-ble a thousand can. The area of ter-The president's reference in its later stage to congress to the wool interest of the country served to bring the representation of the country served to be considered to the country served to bring the representation of the country served to be considered to the country served t Glaus Sprockels has said that California might in a few years supply the whole United States. Almost every state in the union may grow sugar beets, if experiments now being nucle show that given quantity of beets to cover all cost at present prices. To interfere with this industry now would be a very serious It would be better to take the revenue derived from sugar and put some of our harbors in a condition to repel, or at least resist, any warship now affoat. There has been much talk about the hardship of a tax on woolen clothes. It is urged that if this tax were taken off wanted \$500 worth of Democratic senathe wage-worker would get their cloth-ing at about forty per cent. less than present cost. Possibly they would. But how would wage-workers like to have their clothes and their wages reduced by 40 per cent, each? How much would ply affirms what a half dozen state su they make by the change? We will suppreme courts have affirmed—the right of pose a man carns \$800 a year and spends a state, in the exercise of its police \$150 in clothes for himself and family, will be profit by reducing his bill for sale of inexicating figures within its clothes by \$60 if \$320 came off his borders. Nobody endowed with concould buy his tools from foreign
manufacturers without having to pay a
tax to import them, he would save con-

products of the farm. Everything will be cheapened, form products as well as manufactured goods. The farmer will, in the end, lose at least four times as though the loss or impairment of the home market for his products as he will save by buying machinery abroad. The save by buying machinery abroad. The United States is admitted to be the most prosperous large nation in the world. It has become so under a system of taxation which enables us to obtain the bull of the revenue needed for the federal government from the products of foreign nations. The tax of these foreign products serves to enable the home manufacturer to supply the home market. The wage-worker gets a portion of this benefit and the capitalist The basis shall be the price for which bushels of barley and rye,514,000 bushels a portion. Assuming that the government collects \$200,000,000 a year from imports into the United States, the products so imported must sell for \$200,-000,000 less than the same amount and sale considerable quantities of wild rice, quality of producis of home growth and

Major James B. Abbott, of De Sota, has again given the State Historical Society a number of interesting relics. The first is an English musket, a relic on the 24th day of October, 1864. dead confederate soldier, who had been killed in the battle. Apparently a ball had struck the barrel of the gun while

vigilant among the free state men in the struggle for freedom in Kansus. H was a leader in the Branson rescue, commanded at the defense of Lawrence against the 2,700 Missourians who threatened its destruction in September, 1856, he was active with Montgome he was active with Montgomery in very cr southeastern Kansas in 1858 and led the sanitary party which rescued Dr. John Doy from goods. St. Joseph, Missouri jail. In 1855 he visited the eastern states and procured, through the gift of Amos Lawrence, Horace Greeley, William Cullen Bryant and others, the mountain howitzer now in the pessession of the State Historical society also-over a hundred Sharp's rifles besides other arms. In the Price raid, being agent of the Shawnee tribe of Indians, at the request of General Curtis, he brought into service on the Missouri border every ablebodied man, save one, of the tribe, and commanded them at the battle of Westport and until Price was driven from the Kansas border and the Kansas militia were discharged. The sword given the historical society was procured y him of the manufacturer at Cabetville, Connecticat, in 1855, at the time he procured the other arms for Kansas
